Professional Summary

AI Engineer (B.Tech CSE – AI & ML, 2025) building production-ready **LLM applications** with **Python, FastAPI, React, RAG, NLP, and REST APIs**. Shipped **CareerPilot AI** (resume analysis, job matching, mock interviews) and a live-deployed **AI Interview Coach**. Built ML models on **50,000+ records** reaching **89% accuracy**; delivered a **20% accuracy gain** as an AI/ML intern.

Technical Skills

- Programming Languages:** Python, SQL, Java, JavaScript
- Generative AI:** Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), Prompt Engineering, Agentic AI, Natural Language Processing (NLP), Semantic Search, Embeddings, Groq API, LLaMA 3.3 70B, Gemini API
- Machine Learning:** Scikit-learn, TensorFlow, XGBoost, Pandas, NumPy, Feature Engineering, Data Preprocessing
- Backend Development:** FastAPI, Flask, RESTful APIs, Pydantic, Uvicorn, Gunicorn, JSON
- Frontend Development:** React, Vite, HTML, CSS
- Databases:** SQLite, MySQL
- Cloud & DevOps:** Git, GitHub, Docker, AWS, CI/CD Pipelines, Render

Projects

- CareerPilot AI – AI Career Platform** | *Python, FastAPI, React, Vite, Groq API, LLMs* | [Live Demo](#) | [GitHub](#)
– Built full-stack **AI career platform** (React, FastAPI): resume analysis, job matching, and mock interviews.
– Integrated **Groq LLM** with structured JSON prompts to generate resume scores, skill gaps, and role matches.
– Implemented **PDF/DOCX resume parsing** and resume-to-JD match scoring with matched and missing skills.
– Added **live job search** to find current openings and rank them by resume match score.
– Designed interview flow (setup, questions, answer evaluation, final report) with **Pydantic-validated APIs**.

2026
- AI Interview Coach** | *Python, FastAPI, Flask, LLMs, RAG, Groq API, SQLite* | [Live Demo](#) | [GitHub](#)
– Deployed AI interview platform with **ATS resume analysis, JD matching**, and emotion/speech analysis.
– Integrated **Groq LLaMA 3.3 70B, RAG**, and semantic search for context-aware interview feedback.
– Built **FastAPI/Flask REST** backend with SQLite; deployed on **Render** using **Gunicorn**.

2025
- Customer Churn Prediction** | *Python, Scikit-learn, XGBoost, Pandas, NumPy, SQLite* | [Live Demo](#) | [GitHub](#)
– Built end-to-end **ML pipeline** to predict customer churn on **50,000+ records** for retention analysis.
– Performed preprocessing, **feature engineering**, EDA, and model training with Scikit-learn and XGBoost.
– Achieved **89% accuracy**; validated models with feature importance analysis and performance metrics.

2025

Experience

- AICTE – EduSkills (Supported by Google for Developers)**
AI/ML Intern

Jul 2024 – Sep 2024
Remote

- Engineered predictive models with **Python, TensorFlow, and Scikit-learn**, improving accuracy by **20%**.
 - Automated data preprocessing and model training pipelines, cutting pipeline execution time by **25%**.
 - Containerized environments with **Docker** and aligned codebases with **CI/CD** deployment standards.
 - Collaborated with cross-functional teams in an **Agile/Scrum** environment to meet project milestones.

Education

- Bachelor of Technology in Computer Science and Engineering (AI & ML)**
Nalla Narasimha Reddy Engineering College

2021 – 2025
Telangana, India

Certifications

- Google/Kaggle:** Generative AI & AI Agents Intensive
- Deloitte:** Cyber Security Job Simulation (Forage)
- SoloLearn:** Python Intermediate – Certified Programmer
- NPTEL:** Soft Skills & Professional Communication
